

# Volunteer Agreement - Thermal Imaging

1. CCF provides you training in using Thermal Imaging Cameras and interpreting their images, **expecting you to survey homes apart from your own**, such as homes of friends, neighbours, family etc, or maybe community or work premises.  
You're welcome to repeatedly borrow a camera for these surveys to reveal where more buildings are wasting heat to the owners/ users.
2. The cameras are **expensive equipment**, insured against loss and accidental damage. To be covered by our insurance, they must be:
  - **used with care**, as described in the training
  - **only used by trained people** - don't lend them to others
  - **not be left unattended** or in unlocked rooms, vehicles, etc
3. **Please follow the procedures:**
  - **Book and collect** a camera, as arranged
  - **record** your use of the camera on the "Record of Use" booklet in its case
  - **return** the camera at the agreed place and time
  - **report** any damage or problems with the camera
4. **Please ask householders if they'd like to make a voluntary donation to CCF.**  
Typically £5 - £50. Online Donations: [cambridgecarbonfootprint.org/donate](http://cambridgecarbonfootprint.org/donate)  
There are also envelopes (with Gift-aid declaration) for cash donations.  
Please make sure Cash donations are returned to [CCF's Office](#).

**Thank you** for helping householders cut their energy consumption & carbon emissions, collecting donations for CCF and publicising our work.

---

**I confirm that I have read and accept these arrangements:**

Please complete this and leave a copy with your trainer. Then you can arrange to borrow a camera.
