

Volunteer Agreement - Thermal Imaging

1. Cambridge Carbon Footprint (CCF) provides you training in using Thermal Imaging Cameras and interpreting their images, **hoping you will survey homes apart from your own** or maybe community or work premises.
You're welcome to repeatedly borrow a camera for these surveys, revealing to the owners/ users where their buildings are wasting heat, etc.
2. The cameras are **expensive** and are insured against loss and accidental damage. To be covered by our insurance, they must be:
 - **used with care**, as described in the training
 - **only used by trained people** - don't lend them to others
 - **not be left unattended** or in unlocked rooms, vehicles, etc
3. **Please follow these procedures:**
 - **Book and collect** a camera, as arranged
 - **record** your use of the camera on the "Record of Use" booklet in its case
 - **return** the camera at the agreed place and time
 - **report** any damage or problems with the camera
4. **Please ask householders if they'd like to make a donation to CCF.**
Typically £5 - £50. Online Donations: cambridgecarbonfootprint.org/donate
There are also envelopes (with Gift-aid declaration) for cash donations.
Please make sure any cash donations are returned to [CCF's Office](#).

I confirm that I have read and accept these arrangements by signing below:
